THE RATE GAP | MASTER SUMMARY | 50 STATES + DC | MEDICARE ADVANTAGE

No state leads on every measure. The announced 2027 county benchmark change runs from 3.21% in Indiana to 9.36% in Alaska.

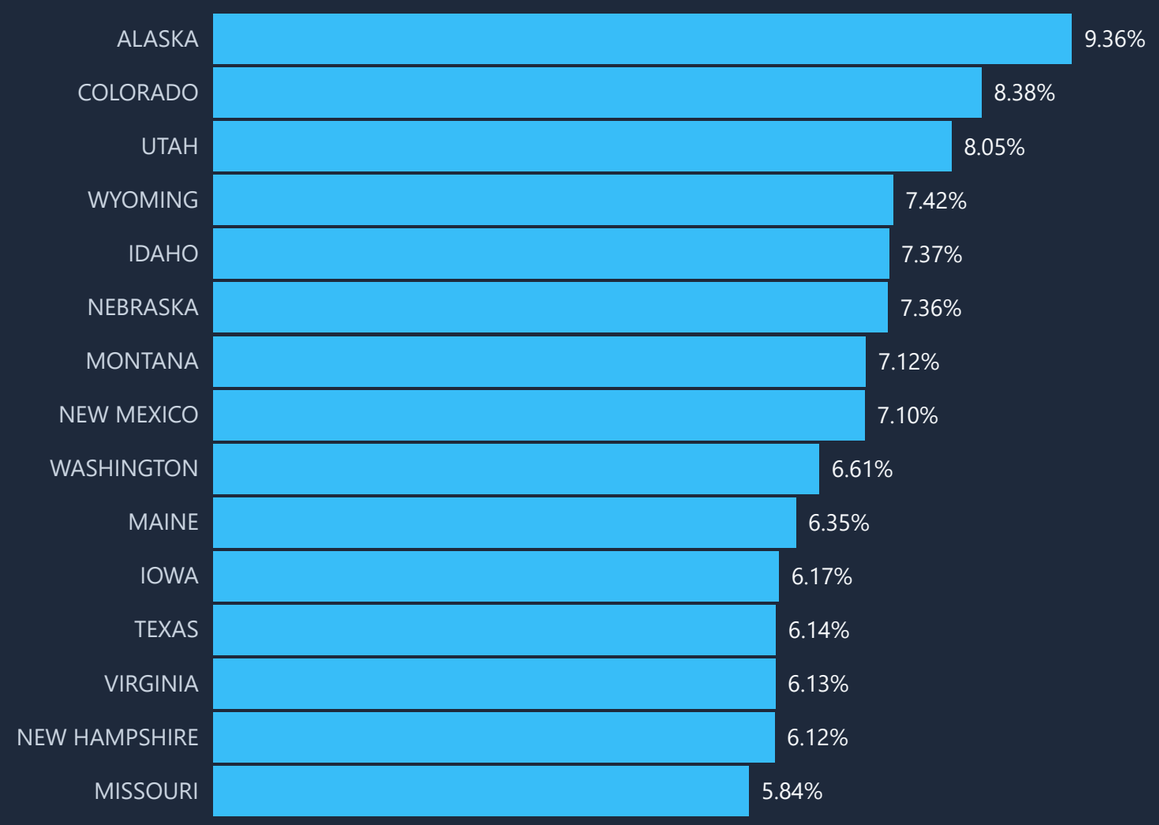

Enrollment-weighted county rate change, ratebook 2027 vs 2026: 5.26% nationally. CMS states an expected average payment change of +2.48% (+4.98% with risk score trend) in its April 6, 2026 rate announcement. Rankings are by each column separately; this is not a recommendation and no licensing filter is applied.

5.26%
National 2027 county benchmark change. 26 of 51 areas are above it.

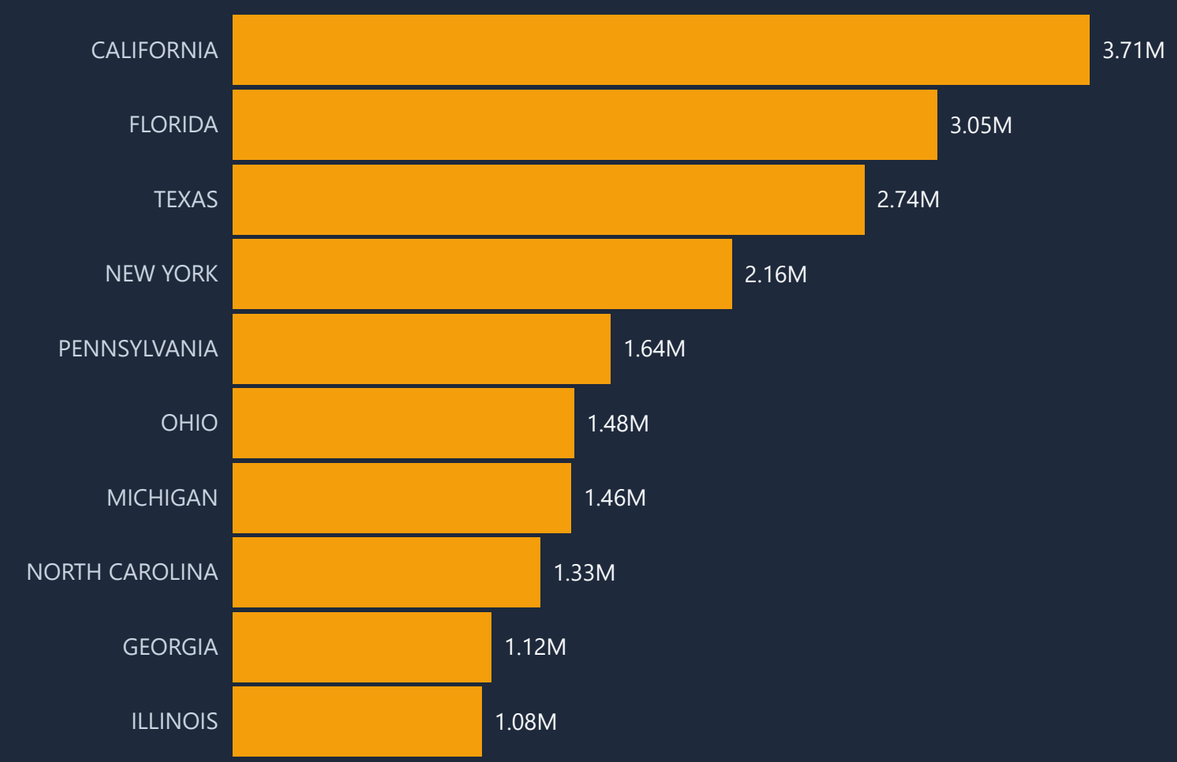

0 of 51
States in the top 10 on all three market columns. California, Florida, New York and Utah reach two.

58.7%
of MA members are with 3 parent organizations: UnitedHealth 26.5%, Humana 20.4%, CVS 11.8%.

Announced 2027 county benchmark change (%), top 15 states

Largest Medicare Advantage markets, members in September 2026, top 10 states

Sources (CMS, pulled 2026-10-13): MA ratebooks 2023-2027 (county rate, 0% bonus column); Monthly Enrollment by Contract/Plan/State/County, December 2023-2025 and September 2026; MLR public use file, contract year 2023 (CY2024 not published). MA plan types only (Local/Regional CCP, PFFS, MSA); PACE, cost and stand-alone Part D excluded. 3-year growth = 2026 vs 2023 rate. A ranking or projection is not proof of wrongdoing. Licensed-state list not supplied: all 50 states + DC shown.
